

Nous Infosystems Announces Strategic Partnership with Nexaweb

Bangalore, India – March 09, 2012:

In an effort to uphold its mission to provide global quality software solutions, Nous Infosystems announced a strategic partnership with Nexaweb, the market leader in transforming growth-limiting legacy applications into modern web-based cloud computing solutions that are securely accessible to anyone. Nous Infosystems will leverage Nexaweb's frameworks to expand and improve upon its legacy modernization services, enabling them to better focus on creating value for their clients.

Nexaweb was founded in 2000 and is based in Burlington, Massachusetts. It has sales, service, and engineering offices in Washington D.C., Tokyo, Seoul, and Amsterdam. Nexaweb's legacy modernization framework includes legacy to Cloud, legacy to SOA, legacy to Mobile and PowerBuilder Code analysis & migration. The company focuses on offering application platform for Internet, composite, situational awareness, and enterprise mash-up applications. It serves industries, such as financial services, insurance, manufacturing, ISVs and OEMs, and government/public sector.

"Combining Nous's delivery excellence and domain expertise with the out-of-the-box, customizable functionality and capabilities delivered by Nexaweb solutions, we will be able to provide greater value to our customers, mainly in the BFSI and Healthcare domains", opined Mr. Buddhadeb Das Gupta, COO of Nous Infosystems.

Nexaweb has modernized more than 450 applications to date with more than 200 customers, including Aflac, DHL, EMC, Nokia Siemens Networks, PepsiCo, Rabobank and US Air Force.

About Nexaweb

Named a "Hot Banking Technology Company" to watch by Forrester Research in 2010, Nexaweb Technologies, Inc. is the leading innovator of solutions for migrating and extending business applications to the Web. Rabobank, Wooribank, Sungard, Jeffries & Co, Mizuho Bank and others have used the Nexaweb FX Accelerator and Nexaweb Enterprise Web Suite to transform complex internal trading systems into easy to use, customer-facing e-trading solutions that increase customer acquisition,

retention and satisfaction. For the latest news and information, follow Nexaweb on Twitter at <http://www.twitter.com/Nexaweb> and visit www.nexaweb.com
